INGERSOLL – RAND TYPE – 30

INFORMATION ABOUT INDEPENDENT COMPONENTS TYPE-30 KITS

We have assembled many types of kits to simplify ordering repair parts:

MAJOR OVERHAUL KITS (MOK) (Page IR-5) To replace most wearing parts

- **MAJOR OVERHAUL KITS** have been assembled which include connecting rods, crankpin bushings and main bearings, plus all items in the Tune Up Kit to repair one Type 30 Compressor.
- These kits are equivalent to the IR Step Saver Kits I + II + III + IV.
- Small compressor kits are available with either Aluminum or Bronze connecting rods. These are designated with the letters A or B.
- To order kits with old style filter pads (instead of filter elements), please add the letter "P" to the kit part number. Kits for vacuum pumps do not contain filters.
- Gasket sets for finger valve compressors in Major Overhaul Kits contain Flexible Graphite gaskets as required. Kits with green Compressed Non-Asbestos gaskets instead of Flexible Graphite also available at a lower cost, please call.
- Note our kits do not contain shaft seal repair kits, if needed please order from page IR-13

VALVE SET MAJOR OVERHAUL KITS (VSMOK) (Page IR-5) have been assembled that includes all parts in MOK's, with complete Replacement Valve Assemblies instead of Wearing Valve Parts.

TUNE UP KITS (TUK) (Page IR-6) To replace wearing parts in the head and cylinder

- **TUNE UP KITS** have been assembled which include Gasket Kit, Piston Ring Kit, oil seal, and wearing valve parts to recondition one Type 30 Compressor.
- To order kits with old style filter pads (instead of filter elements), please add the letter "P" to the kit part number. Kits for vacuum pumps do not contain filters.
- These kits are equivalent to the IR Step Saver Kits I + II + III. Note our kits do not contain shaft seal repair kits, if needed please order from page IR-13
- Tune up kits for finger valve compressors are available with either Flexible Graphite gaskets, as required (note the letter "G" after the model, except models 2340, 2420, 2475 and 2545 only are available with Flexible Graphite gaskets) or with green Compressed Non-Asbestos gaskets.

VALVE SET TUNE UP KITS (VSTUK) (Page IR-6) have been assembled that includes all parts in TUK's, with complete Replacement Valve Assemblies instead of Wearing Valve Parts.

HEAD OVERHAUL KITS (HOK) (Page IR-7) To replace wearing parts in the head only

- **HEAD OVERHAUL KITS** have been assembled with all necessary gaskets, "O" rings, and wearing valve parts to recondition the entire head for one Type 30 Compressor.
- To order kits with old style filter pads (instead of filter elements), please add the letter "P" to the kit part number. To order kits with old style filter pads, please add the letter "P" to the kit part number. Kits for vacuum pumps do not contain filters.
- These kits are equivalent to the IR Step Saver Kits I + II.
- Head overhaul kits for finger valve compressors are available with either Flexible Graphite gaskets as required (note the letter "G" after the model, except models 2340, 2420, 2475 and 2545 only are available with Flexible Graphite gaskets) or with green Compressed Non-Asbestos gaskets.

VALVE SET HEAD OVERHAUL KITS (VSHOK) (Page IR-7) have been assembled that includes all parts in HOK's, with complete Replacement Valve Assemblies instead of Wearing Valve Parts.

PISTON RING KITS (Page IR-10) Sets of piston rings are assembled and packaged separately for each piston.

GASKET KITS (Page IR-9) Some gasket kits for finger valve compressors are assembled two ways: Either with Flexible Graphite gaskets, sometimes referred to as Graphoil, the material used by the OEM (note the letter "G" after the model, except models 2340, 2420, 2475 and 2545 only are available with Flexible Graphite gaskets); Or Green Compressed Non-Asbestos material. Note usually only certain gaskets found in the air head are Flexible Graphite, other gaskets are made of the appropriate gasket materials. Note ICC MOK's for Finger Valve Compressors use the Flexible Graphite Gasket kits (if available). ICC TUK's and HOK's are available with either type Gasket Kit.

INGERSOLL RAND STYLE OVERHAUL KITS (Page IR-7 to IR-8) These kits are assembled with the same components as the OEM kits to the best of our knowledge. Often the OEM modifies the contents and/or change part numbers. We do our best to keep up. Please note that kits for the finger valve compressors use Green Compressed Non-Asbestos material except the kits marked with †, that contain Flexible Graphite gaskets as required. Also, these kits do not contain shaft repair sleeves; they can be purchased on page IR-13

CRANKSHAFT REPAIR KITS (Page IR-13) To repair crankshafts that have a groove worn in them from Viton oil seals.

See IR-Index for Pricing by Page Number and a Complete List by IR OEM Number

Full money back Guarantee if not satisfied

Kits may be available for other similar compressors. Please call for details.

Unloader Piston Rings – TYPE 40

12A18CA131 (X1244T3).....37803210 PR-T3-IR

Unloader Pistons, Plungers, Valve Cages and Valve Crabs See Index

TYPE 40 TUNE UP KITS TUK's Contains channel and springs sets for all valves, unloader springs, unloader piston rings (LP unloader parts only - if the compressor has HP unloader piston, please order unloader piston rings and springs separately), complete gasket set, all piston ring kits, connecting rod bearings and oil seals. If valve guides are required, please order separately. Note all parts in these kits are available individually, please FAX or call for information.

TYPE 40 HEAD OVERHAUL KITS HOK's Contains channel and springs sets for all valves, unloader springs, unloader piston rings (LP unloader parts only - if the compressor has HP unloader piston, please order unloader piston rings and springs separately), valve seat gaskets, and valve cover gaskets, unloader cover gaskets and nut gaskets. If valve guides are required, please order separately.

Parts for other IR Air Power Compressors

Models

- LLE – All models
- ES / ER Lubricated Models
- ESH – Lubricated and Non Lubricated Models
- ESV – Lubricated and Non Lubricated Models
- XLE – Lubricated and Non Lubricated Models
- PHE – Lubricated and Non Lubricated Models

Parts for LLE Compressors

- “CS” Channel Valve Assemblies and Components
- “CS” Valve Seat with Seat Plates and Guides
- “CS” Valve Stop Plates
- “CS” Channel & Spring Sets
- “CS” Channel Guides
- “CS” Valve Guide Dowel Pins
- “CS” Seat Plates
- Piston Ring – Packing Ring – Gasket Kits
- Individual Gaskets
- Piston Rings
- Unloader Piston Rings
- Preventative Maintenance Valve Kits
- Piston Ring – Packing Ring – Gasket Kits
- Air End Gasket Kits
- Frame Gasket Kits
- Intercooler & Aftercooler Gasket Kits
- Regulator Repair Kits
